Sampco is a national provider of marketing services to the building materials industries. Our Brilliant Graphics Group subsidiary provides large format digital printing, high definition digital scanning, color correction and graphic design. The Sampco Companies have over 23 years of experience and a national infrastructure of five manufacturing / distribution centers.

We contacted DGER several months ago to fill the Operations Manager position for Brilliant Graphics Group. I can say with confidence that Scott (Owner) is one of the most professional and customer focused recruiters that we have worked with to date. He is passionate about placing the correct individual in the position and has the resources and networking capabilities to succeed in his mission.

What impressed us the most about Scott is the impeccable follow up once the candidate was placed. His job didn't end when the invoice was paid. We have consulted with him on several occasions after the fact and have invited him to strategic planning sessions. He has literally become an extension of our executive team and is a tremendous resource for our future planning in the large format printing realm.

Without reservation, I would recommend DGER highly for your recruiting needs.

Michael O. Ryan – Founder / CEO Sampco and Brilliant Graphics Group – www.brilliantgraphicsgroup.com

DGER has been instrumental in finding excellent candidates for various positions in our company. They are able to utilize years of experience in the digital and technical printing industries to find the right people that meet our requirements. They are very reliable, understand our criteria and are flexible as our requirements change.

Donald S. Feagan – President & COO – SA International – www.saintl.biz

DGER understands our organizational structure and the importance of profitability. I find their research of candidates impeccable with an extremely fast response time. More importantly, they only send qualified candidates that exceed the minimum requirements and are ready to commit to a new career.

Mark Packman – Former President – NUR America, Current Director of Sales – Chimigraf Americas

DGER's professional demeanor and extensive market knowledge make them the ideal recruiter for wide format inkjet. They present qualified candidates and really do their homework. It's a pleasure working with a company that knows both the sales and technology sides of the business.

Steve Bennett – Former VP of Sales & Marketing Wide Format – Fujifilm Graphics Systems USA, Inc.

Although Nazdar SourceOne enjoys a leading position as a distributor to the screen printing and wide format graphics imaging industry, we still experience the same challenges as other companies when identifying talented individuals to fill our sales and technical support vacancies.

That is why we chose DGER to coordinate our recent search for a Northeast Region Territory Manager. This position was identified as a critical role in our Sales Organization and we needed to hit the ground running. Thanks to DGER, we greatly reduced our recruitment period and identified a well qualified individual to fill this important role. Thanks DGER, we'll be back!

Peter G. Walsh – Vice President & G.M. – Nazdar SourceOne – www.sourceoneonline.com
